FOIA REQUEST / 2nd notice
Re: EPA 600/7-79-256 Dec 1979

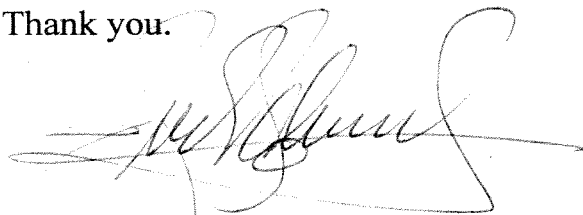

Greetings:

I am attempting to locate item #48 in the reference section of the cited report located on page 158, "U. S. Department of Transportation, U. S. Coast Guard, 1977. On Scene Commander Report of major Oil Spill - NEPCO 140, Buffalo, NY."

The Coast Guard maintains no records what so ever of the June 23, 1976 oil spill in the St Lawrence Seaway. I realize that is a long shot to ask if the EPA has maintained the cited reference document but all of my attempts to locate it at the Coast Guard and National Archives have met with failure.

My original request of August 8, 2014 has not received any reply.

Thank you.
